

Provider Communication

Subject: Appendix for the Indigent Care Trust Fund (ICTF) Program	Priority: High
Date: September 19, 2003	Message ID: ACSBNR-09192003-2

Dear Hospital Provider:

The Department of Community Health has completed the Appendix for the Indigent Care Trust Fund (ICTF) Program. Please review Part II, Policies and Procedures for Hospital Services, Appendix R. The manual can be found on www.ghp.georgia.gov.

In preparation for this year's ICTF allocation for the participating hospitals, please pay special attention to the Primary Care Plan section. For each hospital specific plan/project submitted, each element in Section C-3-B must be addressed. For the pre-approved plans, Uninsured Proposal and Cancer Screening Programs, a one-page description of the specific initiative, target population, financial commitment and anticipated impact must be included. Also, the Public Notice must include all elements in Section E.

Thank you for your participation in the ICTF and your concern for Georgia's indigent patients. If you have any questions or need additional information, please contact Stephanie Simmons, Program Specialist by calling (404) 657-9126.
